

Procon Mining and Tunnelling Ltd.

Position: **Open Pit / Earthworks Superintendent**
 Open Pit / Earthworks General Foreman

Responsibilities: Reporting to the Area Manager, both positions will be on a rotational schedule in a camp setting and will be responsible for initially managing the capital construction of surface earthworks (roads, tailings facilities, etc.) and then overseeing the safe, efficient and productive mining of a small to medium sized open pit operation in a northern setting.

The successful applicants will bring excellent organizational skills, extensive open pit operational experience, be a proven problem solver and be an excellent communicator. The candidate will be expected to work with the client's management to provide a safe, efficient, and quality service while exceeding production goals.

The Open Pit / Earthworks Superintendent will be expected to take on significant responsibility in Administration, safety management, planning and reporting functions.

The Company: Procon Mining & Tunnelling Ltd. is a successful, leading private Canadian mining contracting firm based in Burnaby, British Columbia. We specialize in remote green-field startup and operation of mining projects through to full contract mining – particularly in northern climates.

Procon provides a competitive compensation package, paid travel, and excellent career growth prospects for the ideal candidate(s). Prior experience in a Contractor setting is preferred.

Procon Mining and Tunnelling Ltd. is a progressive, equal opportunity employer and offers a competitive compensation package, relocation assistance, great career growth prospects and the opportunity to make a significant contribution to Canada's mining industry.

Thank you in advance to all applicants for submitting your resume for our review. Please note that only qualified applicants will be contacted. Note that only Canadian residents will be considered. For additional information or to submit your resume for this role please:
